# The right strategy for our clients

PwC Brazil adopts a multidisciplinary approach, leveraging cross-industry expertise and versatile skills. We assemble collaborative teams of professionals with expertise in tax, accounting, operations, procedures, and technology. These capabilities are essential for tackling broad and complex projects effectively.

## Brand and security

The reliability and confidentiality with which we operate across all our specialized services, starting with compliance, enhance our clients' brand value and earn recognition from stakeholders.

## Flexible delivery model

By leveraging agile methodologies and flexible tools, the delivery team can quickly adapt to changes in client needs, emerging technologies, and new challenges. This approach optimizes delivery processes, improves efficiency and operational quality, and reduces response times.

## Technology and transformation

PwC's permanent investment in innovative technologies enables us to achieve a high level of efficiency and accuracy in our results. This capability is reflected in the automation of specialized activities and the integration with clients' process systems. As a result, it drives transformation projects and fosters synergy with the teams responsible for outsourced processes.

## **Accelerate with the right tech and talent**

Move your business forward—faster. PwC's Managed Services transform and operate your complex processes and functions. But what we provide goes far beyond outsourcing. Think of us as your digital business ally, equipped with connected technology, cutting-edge expertise, and hands-on support to help you scale and continuously improve.

Our network of managed services professionals consists of industry and delivery specialists who bring human-led, tech-powered solutions to drive innovation across your organization.

## **Global coverage**

With its global presence, PwC supports all client subsidiaries. This unique advantage allows companies to interact with a single global contact, streamlining territorial expansion and ensuring integrated, centralized compliance management.

## **Service management**

To further enhance quality, PwC provides dedicated resources to monitor compliance with agreed-upon service level agreements. Tracking efficiency and service quality indicators is not just a way for PwC to ensure accuracy, quality, and accountability—it also serves as a foundation for continuously identifying areas for improvement.

## **Experienced professionals**

PwC has specialized teams of experts in accounting, taxation, labor, and social security to ensure the accurate processing of all activities. On average, partners and directors have over 20 years of experience in these fields.

# Key advantages for our clients

Increased focus on the company's core business by freeing up time and resources.

Reduced costs associated with hiring, training, and managing teams.

Lower risk of overdue payroll charges payments, helping to avoid fines and interest.

A dedicated PwC team continuously communicates with your representatives to address and resolve any issues.

Decreased expenses related to ERP licensing, implementation, and maintenance.

Standardized and automated processes that follow industry best practices.

Enhanced information security.
